DEDICATED INFRASTRUCTURES
TO ELEVATE YOUR TRAINING
EXPERIENCE

IN ACCORDANCE WITH THE
CREW REGULATORY TRAINING

ICAO, IATA, EASA,
Air Crew, Air OPS,
and your Operating Manual

OUR SOLUTIONS

for all your needs

Commercial cabin devices integrated into A320 forward sections – with smoke and audio capabilities – simulating a lifelike cabin environment and providing optimum conditions for integrated safety & emergency scenarios.

Our height device equipped with an evacuation slide and a Real Fire Fighting Trainer (RFFT) cabin meets all your scenario-based essentials during exercises.

Scenario-based rescue training is also planned such as helicopter hoisting, life raft in swimming pool, flight crew immersion simulation for ditching.

OUR CUSTOMIZED program

Your sessions will be personalized according to your commercial operations.

We are able to accomodate your flights crew and cabin crew for OCC, RTC, Type Rating imposed by EASA and Air Crew and Air OPS regulations.

Our training takes into account the particularities of business aviation.
